

EXAM CONFLICTS DUE TO OBSERVANCE OF RELIGIOUS HOLY DAYS.

Students who are unable to write a final examination(s) during the regularly scheduled time slot because of a conflict with religious conviction must apply for the alternative examination(s) in the course(s) involved by the end of the normal add/drop period for the particular session. The Registrar's Office will schedule the alternative examination(s) for those students in another slot(s) within the regular examination period. Please download the appropriate form from <http://www.uwindsor.ca/registrar> and submit to the Office of the Registrar.

WRITING THREE OR MORE EXAMS ON THE SAME DAY

A student scheduled to write three invigilated final examinations in one calendar day, or three or more final examinations in consecutive time slots over a 24-hour period, may apply to have one examination rescheduled on an alternate examination day. The determination of which examination shall be rescheduled and the date of the alternate examination (may be the last possible day of the examination period) shall be made by the Registrar. Please download the appropriate form from <http://www.uwindsor.ca/registrar> and submit to the Office of the Registrar.

Note: These applications must be submitted by the end of the fourth week of classes (second week of classes for 6 week courses).

Social Work

300 and 400 level Social Work courses are restricted to third and fourth year Social Work majors.

12-WEEK SESSION

0247-570 Field Integration Seminar

This seminar course focuses on the integration of academic and field work experience to advance knowledge, values, and skills as they relate to the development of advanced practice competence. Students will use structured reflection and self-evaluation to understand their own practice in terms of values, ethics, policies, theoretical models, and agency expectations. Students will reflect upon personal values and beliefs and explore solutions to actual issues during their field placements. (This course is evaluated on a pass/fail basis.) Given that students enrol in the Field Integration Seminar 47-570 and the Master of Social Work Foundation Year Practicum (field placement) 47-571 concurrently in the winter term, and give that the seminar course builds on, and explores solutions to issues encountered during field placements, the duration of the seminar course will be extended to match the length of the practicum course (January □ May, 2007). Total contact hours remain the same.

Section 1	3.00	LEC					TBA	
Section Offered as Distance Education								
All MSW regular track foundation students should register in this section.								
Section 2	Full 3.00	LEC					Carter, I.	
Section Offered as Distance Education								
Instructor approval required. The School of Social Work will move students into this section after the beginning of the semester for field placement.								
On-line - Friday's 9 a.m. until 11 a.m.								
Section 3	Full 3.00	LEC					Campigotto, Clarissa A.	
Section Offered as Distance Education								
Instructor approval required. The School of Social Work will move students into this section after the beginning of the semester for field placement.								
On-line - Friday's 9 a.m. until 11 a.m.								

Women's and Gender Studies

12-WEEK SESSION

0253-120 Women and Friendship

This course examines a diverse range of women's friendships. Through discussion, reading, and films we will explore topics such as the meaning of friendship for women, how women's friendships have been portrayed in literature and film, the link between friendship and social activism for women, and the political meanings of women's friendship in cultures resistant to woman-centered consciousness. (Can be taken for Social Science or Arts credit.)

Economics

INTERSESSION

0341-110 Introduction to Economics I

An introduction to microeconomics intended to provide students with the tools necessary to begin to understand and evaluate how resources are allocated in a market economy. Specific topics include how markets function, theories of the business firm, of consumer behaviour and of income distribution. The economic roles of labour unions and government are also covered. The theories are applied to contemporary Canadian economic problems.

Section 95	3.00	LEC	TR	04:00	06:50PM	Toldo Health Education Centre	200	Latvenas, J.	Jun 23 08:30am
------------	------	-----	----	-------	---------	----------------------------------	-----	--------------	----------------

Section Offered as Partial Distance Education

"As a blended course, all lectures will be taught in class and streamed live for students to join online during the class time. Lessons will be recorded and students will have an access to review it at any time during the semester."

0341-111 Introduction to Economics II

This course is an introduction to macroeconomics. The emphasis is upon measuring and explaining what determines economic aggregates such as the total national product (GDP) and the level of prices and employment. The role of money and financial institutions, the impact of international trade and the policy options available to governments for coping with inflation and unemployment are discussed in detail.

Section 95	3.00	LEC	MW	04:00	06:50PM	Toldo Health Education Centre	202	Latvenas, J.	Jun 23 03:30pm

Computer Science

12-WEEK SESSION

0360-104 Computer Concepts for End-Users
Introduction to the concepts of operation of a computer system, including hardware and software. Development of conceptual understanding of word processors, databases, spreadsheets, etc., and practical experience with their use. Networking concepts and data communication concepts will be introduced. The Internet will be introduced with students having access to internet resources. Management information systems including the systems development lifecycle will be discussed. Fundamental concepts of algorithm development and programming will be introduced. Hands-on experience with microcomputers as well as a distributed-computing environment will be involved. In addition to lecture time, laboratory/tutorial time may be scheduled as required. (May not be used to fulfill the major requirements of any major or joint major in Computer Science.)

Section 91	3.00	LEC					Mayo, D.	Aug 16 12:00pm
------------	------	-----	--	--	--	--	----------	----------------

Section Offered as Distance Education
If you are writing your final exam off campus most invigilators charge for invigilation. You are responsible for covering all exam invigilation related costs.

0360-205 Introduction to the Internet
Students will be introduced to the Internet as a global information infrastructure, including the development of early and current communication protocols and services, packaging of data, and data transmission. Fundamental concepts of and tools to support Internet browsing through concepts of Universal Resource locators and Hypertext Markup Languages will be included. Students will be required to publish a website on the Internet using HTML. Web page enhancement through the use of JavaScript and other tools will be introduced. The functionality of electronic mail and bulletin board services will be introduced with hands-on experience in sending and receiving information, automated title searching, and an introduction to organizing information to be accessible over the network. Technical methods of binary data transfer on analog carriers will be introduced and comparison of Ethernet and ATM fibre-optic digital delivery will be discussed. In addition to lecture time, laboratory/ tutorial time may be scheduled as required. (Prerequisite: 60-104 or 60-106 or 60-140.) (May not be used to fulfill major requirements of any major or joint major in Computer Science.) (3 lecture hours a week)

COVERS TWO TERMS

0580-332 Instructional Technology
This course explores a range of digital technologies in educational settings. Focusing on teaching, learning and inquiry, students will evaluate digital educational resources, critically discuss and assess uses of new media in school-based contexts, gain hands-on experiences with various digital tools, and develop various multimedia instructional tools with the aim of building an intelligent and thoughtful disposition towards the use of learning technologies within their own classroom and school contexts.

Section	2	1.50	LEC				Pfaff, Jason J	
---------	---	------	-----	--	--	--	----------------	--

Section Offered as Distance Education

Course Runs August 16 through August 31

0580-204 Instr. for Students with Special Needs
This course provides an introduction to the field of special education in the Canadian context, focusing on background knowledge needed by teachers to address diverse learning needs in inclusive classrooms. The course surveys the learning needs of children and adolescents with both high and low incidence exceptionalities, and highlights methods of differentiating classroom instruction to meet their individual needs, as well as approaches for remedial assistance for specific learning difficulties.

Section	1	3.00	LEC				Freer, J.

Nursing

INTERSESSION

1163-580 Selected Reading/Nursing/Grounded Theory

Intended for students with a special interest in and knowledge of a specialty area in nursing. To explore theory and research related to human responses and adaptations to alterations in health, or health promotion and illness prevention with selected client populations. (To be taken only with permission of the School.)

Section 95	3.00	LEC	MW	09:30	12:20PM	O'Neil Medical Education Centre	3102A	Giannotti, Natalie
------------	------	-----	----	-------	---------	---------------------------------	-------	--------------------

Section Offered as Partial Distance Education

"This course section will be offered by partial distance - i.e. some classes will be delivered online, and other classes will be delivered in person on campus only. On campus classes will take place on Mondays, and online discussions will take place on Wednesdays. Students only need to attend classes in person on Mondays. There will be no scheduled time for online discussions as long as they are completed by the end of day on Wednesday. Classes will not be recorded. Presentations will be part of the class and will take place on Mondays."

This course provides an introduction and in-depth description, analysis, and application of the traditional Glaserian, Straussian, and Constructivist grounded theory methods. A major focus will be on students' development of theoretical sensitivity via group and individual exercises, reflection, and research. Students will be introduced to the utility of grounded theory research in informing clinical practices and processes and the development of disciplinary knowledge and selected disciplines. The course will be useful for both the novice and experienced researcher, and can be either the basis or beginning of thesis research.

"This course section will be offered by partial distance - i.e. some classes will be delivered online, and other classes will be delivered in person on campus only. Presentations will be part of the class and will take place on Mondays."

SUMMER SESSION

1163-351 The Human Meaning of Death

An examination of the human experience of death and dying, the meaning of human life, ethical and cultural aspects, euthanasia, and advanced directives. Lectures, readings, films, and discussions will explore a variety of significant thinkers and concepts concerning death. Through various exercises and shared experiences, students will be encouraged to examine their own feelings and attitudes toward death. (Open to non-nursing students and may be taken as an Arts option by B.Sc.N. students.) (3 lecture hours a week.)

Nursing

SUMMER SESSION

1163-373 Nursing Care- Complex Health Problems I
 This course focuses on the exploration of health, maturation and adaptation in adults experiencing complex and/or a multi-system health disruption within the context of family and community. Environment, culture, critical thinking, communication, caring and teaching/learning along with assessment and intervention skills are emphasized. (Prerequisite: 63-278.) (Corequisites: Registration in all year 3 fall semester courses.) (3 lecture hours a week.)

Section 95	3.00	LEC	MW	08:30	11:20AM	Toldo Health Education Centre	202 Rickeard, Deborah L	Aug 11 12:00pm
------------	------	-----	----	-------	---------	-------------------------------	----------------------------	----------------

Section Offered as Partial Distance Education
 "This course section will be offered as a hybrid model. Students have the option to attend classes in person on campus or live online via Blackboard Collaborate, as per the class schedule. For most classes, the instructor will present simultaneously in class and through Collaborate to students who are off-campus. The off-campus (online) students will be able to participate in the live classes and ask questions through the Collaborate interface. Depending on the class activity/content, there may be some classes where students will be required to attend class in person on campus, rather than online. The instructor will provide this information at the start of the course. All tests, quizzes, mid-term and final exams must be written in person at UWindsor campus unless otherwise specified by the instructor."

1163-391 Basic Human Nutrition
 A study of the basic principles of nutrition and their relationship to health promotion, disease prevention, health maintenance, and restorative care. The focus will be on the nutritional requirements of healthy individuals and individuals with health disruptions across the life span. (Prerequisites: 59-191, and one of 55-141, 55-204, 55-205, or 63-177.) (Open to non-nursing students.) (3 lecture hours a week.)

Section 95	Full	3.00	LEC				Wellington, Christine M.	Aug 13 07:00pm
------------	------	------	-----	--	--	--	--------------------------	----------------

Section Offered as Partial Distance Education
 Student required to write all exams in person at Univ. of Windsor Campus.

Section 96		3.00	LEC				Wellington, Christine M.	Aug 13 07:00pm
------------	--	------	-----	--	--	--	--------------------------	----------------

Section Offered as Partial Distance Education
 Student required to write all exams in person at Univ. of Windsor Campus.

Cross Border Mgmt & International Trade

INTERSESSION

1469-300 Global Bus. Env. & Integrative Trade
 The aim of this course is to provide each learner with an overview of the role of border agencies and the principles of border management. This course raises participants' awareness of the intricacies involved in the communication process with various government agencies, border officials, and business partners and equips participants with specific techniques for effective communication in a variety of business situations. Attentiveness to the ethical dimension of business in a global setting is cultivated within each learner and decision-making models for resolving ethical dilemmas are utilized. The integrative trade approach is introduced within a cross-border and international trade environment and intercultural aspects of such trade are considered. In particular, learners focus on recognizing, understanding, and respecting differences in trading practices due to cultural influences. (This is a four-week course. 9 lecture hours/week)

Section 91		3.00	LEC				Tannous, Laurie	
------------	--	------	-----	--	--	--	-----------------	--

Section Offered as Distance Education
 This section is a Pass/Fail Grade.
